

## Minima Installation on MacOS:

1. Download **MinimaApp.dmg** installer for MacOS
2. Double click the installer file and it'll open a window to move installer to Application.

3. Once installed, Minima application should be available in Application and can be run from finder or from double clicking Minima app icon in Applications.

4. Minima App is now running as Agent and to interact, user can open a terminal and type the commands to interact with Minima.  
Eg: **minima status** (from terminal will give json response of status command)

```
UKC17SH8880Y2S:Installer4 vijaywarnkar$ minima status
{"command":"status","status":true,"response":{"version":"0.181.0","uptime":"0 Years 0 Months 0 Weeks 0 Days 0 Hours 0 Minutes 38 Seconds","devices":5,"length":2192,"weight":"121655521982","minima":"1808080808","coins":"418","data":"/Users/vijaywarnkar/.minima","memo":{"from":"40.0 MB","to":"12.0 MB","files":{"type":"1548.0 KB","archived":"16.0 KB","cascade":"730.4 KB","chaintree":"1.4 MB","wallet":"08.0 KB","userdb":"1.7 KB","p2pdb":"1.9 KB"},"chain":{"block":"59207","line":"Tue May 17 11:48:18 BST 2022","hash":"d40808181049512hDAEF6809A78AABF62082F6A9E3F6A31D25817C22997E"},"speed":0.828481,"difficulty":"0x08084821E88590DC5EEB231D65FE0C39E2A867981A029D49C460080828852","size":1868,"length":1868,"branches":8,"weight":"195948391","cascade":{"start":58227,"length":1132,"weight":"121429573591"},"txpow":{"mempool":0,"randb":0,"txpowdb":1863,"archived":0},"network":{"host":"192.168.1.68","hostset":false,"port":9002,"connecting":1,"connected":0,"rpc":true,"p2p":{"deviceHashRate":0.0,"address":"192.168.1.68:9002","isAcceptingInLinks":true,"numInLinks":0,"numOutLinks":0,"numOutAcceptingConnP2PLinks":0,"numInP2PLinks":0,"numKnownPeers":51,"numAllLinks":0,"rpc_inbound":0,"rpc_outbound":0}}}}UKC17SH8880Y2S:Installer4 vijaywarnkar$
